HOW CANDY GUARDS TEETH

Among the foolish ideas that abound in this land, which is not one-half so enlightened as it prides itself upon being, is that which has to do with sweets being injurious to the teeth. Here are the facts:

NORTH LOVELL

Party On Hunting Trip—Adams and Harriman Got Deer—McAllister at Old Home.

Mr. and Mrs. Herbert McAllister, Jr., in company with Mrs. McAllister's sister, Mrs. Adams, and Mr. and Mrs. Ralph Harriman, have been on a few days' hunting trip in Newry.

Mrs. Audrey Andrews assisted by Bessie Adams, entertained the Circle supper Friday. There was an abundant supper and the largest crowd for this fall.

Walter Newcomb, Mrs. Della Russell and Lillian McKee motored to Fryburg, Conway and Bridgton, Sunday, while in Bridgton, Mr. Newcomb called on his brother, who is very ill.

NORTH HARTFORD

Wilma Richardson and daughter, Frances, Edie Davenport and Nettie Stetson visited their aunt, sister and cousin, Mrs. Abbie Noyes, Paris, Sunday, and found her in poor health.

Mrs. Grace Darrington has moved onto her farm in Hartford since her home was destroyed by fire at Canton.

MILTON

The hunters returned from East B Hill, Sunday and reported fourteen inches of snow up there, Saturday. School closed last Tuesday for the rest of the week, so the teachers could attend the Teachers' Convention at Bangor.

WHAT IS LIFE TO YOU?

To the preacher life's a sermon, To the joker life's a jest, To the miser life is money, To the lover life's a rest, To the soldier life's a battle, To the teacher life's a school, Life's a great thing for the thinker, Life's a folk to a fool, But a folk to a fool, Life is just one long vacation, To the man who loves his work, But it's constant dodging duty, To the everlasting child, To the faithful, honest worker, Life's a story ever new, Life is what we try to make it, What, my friend, is life to you?

What Uncle Lem Says

The Moneyed Interests have so far in this campaign contributed close to a million of dollars towards electing certain members of Congress and before the polls close on Nov. 4, they will undoubtedly expend several millions more.

Is anyone green enough to suppose that they are doing this for nothing? Or that they have no interest in the election except as patriotic citizens for the public good? Is the country in danger? Are any industrial interests menaced? Everybody of sense knows that there can be but one reason for such an expenditure of money—the control of the offices and hoped for favorable legislation for them.

The present Congress has the name of being one of the most incompetent ones the country has ever seen. Why is this? Calvin Coolidge said that the people should elect to that body persons of character, ability and experience. In public affairs. That sounds mighty well, but his admonition passes by unheeded by the masses. But the interests laugh at his platitudes and keep on electing plumps and poppings whom they can easily manage. However they got too many of them elected in the great landslide of 1928, for they find that they can't return all of them to the next Congress.

NORWAY SAVINGS BANK

Mark Sullivan, who is very close to the President says that of the 269 members of the dominant party in the House—90 whose seats are desirable, "obscure local Congressmen" are sure to be defeated. He is too wise to tell the whole story and "let the cat out of the bag", as the real facts pending the election, and we can safely add a large number more who will fail to again get their "noses into the public crib".

But he gives his case away as to the control of the next Congress. He says, which is true, that there are at least twenty-five insurgents, commonly dubbed "wild asses of the prairie", who will have seats in the Congress to be chosen on Nov. 4-11 from Wisconsin—a solid delegation in the present House.

Add the 25 Insurgents to the 35 which Sullivan admits is the minimum to be lost and this makes 60, which taken away from the dominant majority leaves them in a minority. That this will be the result unless the opposition alone elects enough to control the House there is not the least doubt.

BUY WHAT YOU NEED

The present business depression, which is universal over the whole country (and some say the world) is due not to any real shortage of money, for there is just as much money in this country as there ever was, but to the fact that those who have money have become timid and are not buying what they need or would buy under normal conditions, thereby keeping that much money out of circulation.

To be sure, if you haven't money you cannot spend it, but those who have money and are not buying what they need or should have, are delaying by just that much the time when business will get back to normal.

The quickest and surest way to bring back National prosperity is to start buying, and the best plan locally is to buy of your local traders; they can then keep and pay their clerks, buy new goods and maintain their credit.

Let's all do our part, however modest, to bring back prosperity to our town, state and country.

Mrs. Alma Davenport of Summer Hill, and Miss Blanche Foster of South Paris called at Harry Buck's, Friday night.

Mr. and Mrs. Philip Mayberry of Poland Springs are having their vacation and visiting at H. W. Phillips' this week. Last week they were in Rhode Island and New Hampshire.

EAST FRYEBURG

Mrs. Jennie Stevens entertained a congenial party of friends at supper on Friday, Oct. 24th. A most delicious and appetizing repast was served to the following guests: Mr. and Mrs. Raymond Ponglass, Miss Ellen Chaplin, Mr. and Mrs. W. B. Lord, Mr. and Mrs. C. E. Smith, Mr. and Mrs. Percy Smith, Charles Rose and Mrs. Jessie Rose. Mrs. Stevens is an exemplar of true hospitality and her supper party will long be remembered by those present.

Regarding Railroads and Freight Rates

By R. L. Cummings of West Paris

Eastman of the Interstate Commerce Commission has delivered an overdue rebuke to the business men of this country as well as the Supreme Court and the public in general, when he accuses us of lack of intelligent control of our public utilities.

He speaks especially of our railroads that are under the supervision of the Interstate Commerce Commission of which he is a member. He says these rates should be revised downward instead of upward. We should bear in mind that rates that will increase our annual transportation charge about forty million dollars in the Northeastern part of this country have already been approved, and unless opposition is brought to bear, will be a reduction instead of an increase, and so be changed.

His statement that during his sixteen years of service, business men have shown no interest in these questions that are of such vital importance to them and the public in general, I fear, is a serious, but a justifiable accusation. An advance in rates of transportation adds to the cost of all goods and materials used in the manufacture of whatever we buy and then adds another charge to the cost of transportation to you. It then takes from the price of anything you have to sell. It is probable that he would have accused the farmer and his organizations had he not considered them, too dead to respond.

When it costs more to transport a car of apples from one side of this state to the other, than the apples cost delivered at the car there is something wrong. When I receive 92c per barrel for apples sold at auction on the dock in England for \$5.15 per barrel and \$4.23 is taken up in overhead charges, when charges for the same service in 1910 would have left a net of \$3.00 per barrel, there is something wrong. When the Shipping Board (appointed by the president) allows the shipping trust to charge us \$5.00 per barrel to carry our apples to England, where we paid 37c to 78c per barrel for more than 20 years for the same service, "there is something wrong in Denmark". When a public utility pays 19-1-2 per cent. on its common stock aside from 7 per cent. on its preferred and supports various holding companies, etc., and common stock probably never represented a penny of actual investment, and their charter for which they were granted these special privileges, only allows them to charge reasonable rates on actual investment properly made, it is safe to say that they are not living up to their contract with the people.

When the public demands justice in these matters we will have taken one important step on the road to prosperity.

When we shut up the greatest gambling house in the world (The Stock Exchange and the Grain Pit) except for actual sales and delivery, we shall have gone a long way toward stopping these great financial depressions. When in country (the richest in the world) in 76 of our largest cities 131,037 families receive aid to the amount of \$3,444,078.00 during the month of August, 1930, in spite of the fact that many cities had out assistance to the lowest possible minimum, there is something wrong.

More than 100,000 barrels of good useful apples will rot on the ground in Maine this season while our departments of agriculture are adding more obstructions to the method of marketing apples.

If you make a car of apples you must pay \$4.00 for inspection and the traveling expenses of the inspector and you must pay \$10.00 for a license to ship apples.
